

Privacy notice – youth activities/projects

Individuals have a legal right to be informed about how our organisation uses any personal information that we hold about them. To comply with this, we provide a 'privacy notice' to individuals where we are processing their personal data.

This privacy notice explains how we collect, store and use personal data about children and young people who participate in our various youth activities/projects, including holiday clubs.

We, Youth Works Northamptonshire, Keystone Centre, 97 Rockingham Road, Kettering, NN16 9HX, are the 'data controller' for the purposes of data protection law.

Our data protection officer is Theresa Wright (see 'Contact us' below).

Our legal basis for using this data

We only collect and use your personal data when the law allows us to. Most commonly, we process it where:

- Fulfil a contract we have entered into with you
- We have obtained consent to use it in a certain way
- Where it is necessary for our legitimate interests (or those of a third party) and your interests and fundamental rights do not override those interests. For example:
 - Funders may be provided with information on the numbers of children and young people within a certain age range participating in activities to show appropriate use of funds;
 - Information relating to numbers of young people within certain minority groups may be used to demonstrate a need for targeted projects.

Less commonly, we may also use personal data in situations where:

- We need to comply with a legal obligation
- We need it to perform an official task in the public interest
- We need to protect your interests (or someone else’s interests)

Where we have got permission to use your data, children and young people (or parents/carers where appropriate) may withdraw this at any time. We will make this clear when we ask for permission and explain how to go about withdrawing consent.

Some of the reasons listed for collecting personal data overlap, and there may be several grounds which justify our use of this data.
